

HIGH COMMISSION OF INDIA, ABUJA

Security Advisory of 07.06.2017

The High Commission of India feels constrained to point out that in the recent past, some parts of Nigeria have witnessed an escalation in insecurity. A string of incidents in the north-east of the country, instances of agitation in the South East besides attacks in the Niger delta region on oil installations continue to pose security challenges. With the prevailing security situation, High Commission of India cautions Indian National in these states to be extra vigilant and take all possible security measures for their protection.

2. In the recent past, Indians living in Nigeria occasionally became unfortunate victims. Recent cases of Indian victims of insecurity in Nigeria include instances of kidnapping of Indian Nationals in Lagos and Abia State. In most cases Indians were passive victims of a situation or a criminal act. In some cases, a more prudent and cautious conduct could have avoided a calamitous outcome.

3. In view of these instances of escalating violence and criminality in various parts of Nigeria, the High Commission emphasises its previous advisories to the Indian Nationals in Nigeria. Specifically, they should limit their exposure to aforementioned and other areas of Nigeria prone to insecurity. They are also strongly urged to constantly observe the appended List of Security Precautions.

4. In case of any crisis, or if you have any information to share, please contact Indian High Commission at Abuja/Lagos at the following co-ordinates:
