Queries on Private Legal Assistance:

The Commercial Wing of High Commission of India in Abuja, Nigeria, provides assistance to Indian companies in doing business with the countries under its jurisdiction by sharing available information on potential opportunities as well as reaching out to Institutions, Chambers of Commerce & Industry and Associations. At times, there might be a dispute related to trade, salary, personal concerns and commercial requests, the remedy of which requires taking legal opinion or recourse as per the provisions of commercial/employment contracts.

An indicative listing of some legal consultants and Chambers of Commerce in the countries of our jurisdiction, for taking legal recourse including seeking advice, guidance, due diligence, verification etc. on trade, personal, employment and related matters, as might be needed by the petitioners from amongst Indian companies or individuals, subject to subject to their own due diligence and directly agreed terms and conditions, is given below.

The High Commission of India and/or Government of India does not assume the responsibility for the professional ability or appropriateness of any of the Legal Consultants mentioned in the list. Also, that mere listing on the website does not constitute an endorsement. The High Commission of India cannot verify, vouch for or validate any Legal Consultancy in this list. The High Commission would be expanding the list as and when other interested, duly registered and authorized entities approach for providing the services.
